This elegant bed features all solid wood construction with mortise & tenon joinery. The frame and panel headboard and footboard provide unique visual elements and contrast. The modern and somewhat Asian-inspired styling sets this bed apart from anything commercially-available today.
## Cut List

### Notes

All measurements include the extra stock required to make standard integral tenons on the rails and stiles. This differs from what was shown in the video where I utilized loose tenon construction resulting in rails and stiles being slightly shorter in total length.
