This trestle table is equally at home in a kitchen, dining room, or office. It features wedged through mortise and tenon joints that allow the entire thing to be knocked down and packed flat.

</tr>
</tbody>
</table>

*You can substitute 4/4 Hardwood for the top.

** Part D Center Leg Accent is cut into 2 parts one 6 1/4” long, the second is 14 1/4” long

*** Floating tenons can be made from scrap and you don’t specifically need 5/4. But if you are using 5/4 for your top, that is most likely what you have in the shop, which is why we listed the material as 5/4.
